The CEO Group was founded by Francis. J. Reilly in 1996. At that time, Fran persuaded twelve area private sector employers to form the CEO Group to be the voice of business while improving the region through philanthropy. The CEO acronym represents three elements of the group's effort: communication, education and opportunity. Fran served as the CEO Group's Executive Director from its inception until his untimely passing on February 26, 2014. The CEO Group has grown from the first twelve charter members to nearly fifty members employing over 30,000 South Jersey residents.

This year, part of the Golf Tournament proceeds will be used as follows; to fund full scholarships to Rowan College, Cumberland County Campus; to support educational opportunities for students through the Cumberland County Technical Education Center Foundation and to assist the Salvation Army Project Thanksgiving, Manna from Heaven, and will continue to fund local scholarships and charities.

Due to your generous support, the CEO Group has donated over \$250,000 since inception to local charities and scholarships from the proceeds of this tournament. Your generosity in sponsoring a foursome or attending our luncheon will continue to allow us to support deserving local charities and scholarships. As always, we truly appreciate your generosity and we promise a great day of fun in return.
