The CEO Group was founded by Francis J. Reilly in 1996. At that time, Fran persuaded twelve area private sector employers to form the CEO Group to be the voice of business while improving the region through philanthropy. The CEO acronym represents three elements of the group's effort: communication, education, and opportunity. Fran served as the CEO Group's Executive Director from its inception until his untimely passing on February 25, 2014. The CEO Group has grown from the first twelve charter members to nearly 60 members employing 40,000 South Jersey Residents. Due to your generous support, the CEO Group has donated over \$400,000 since inception to local charities and scholarships from the proceeds of this tournament. Your generosity in sponsoring will allow us to continue to support deserving local charities and scholarships. As always, we truly appreciate your generosity and we promise a great day of fun in return.
